

CASINO CONSEIL

CONSTRUCTION OF A CASINO

Casino du Nivernais, Pougues-Les-Eaux, France

Located along the N7, in the Park that houses the small thermal spa of Pougues-Les-Eaux, the new casino, planetarium, general-purpose room and bar-restaurant project comes across as a kind of contemporary "Folly". The latter, as does an entrance into the town, runs alongside those of the thermal establishment.

Car park landscaping and the use of natural wood, ventilation and climate control are added to energy recycling and wastewater and rainwater management to make this new building a shining example of the HQE approach.

Art & Build is also in charge of the construction of the following casinos : casino of Grau du Roi, of Luc-sur-mer and Amnéville (sites in progress).

Spring 2006

4.500 m²

Car parks : 240
